

ASSOCIATE IN ARTS
Study Track: FORENSIC SCIENCE

Revised Spring Semester 2010

*The faculty at Durham Tech recommends the following list of courses for students who are considering a career in forensic science. It is to be used as a blueprint for guiding students interested in majoring in Forensic Science in their course selections. The courses listed here will lead your to an Associate in Arts degree that will apply toward satisfying the requirements for a forensic science degree. Students who successfully complete this course of study and who meet the requirements for admission to the university may be eligible to apply for admission to the major with junior standing. **This agreement is meant as a guide and the student should not assume that it addresses unique requirements set by his or her university of choice. It is the student's responsibility to become aware of individual requirements of the senior institution and to make course substitutions as warranted, within the requirements of the AA Plan-of-Study.***

Durham Technical Community College awards the Transfer Core Diploma. The Transfer Core Diploma confirms that students have completed all their General Education Core requirements under an A.A. or A.S. degree program. Core completion certifies that a student has met all the lower-division General Education Requirements of the receiving senior institution and has met the Minimum Course Requirements (MCRs) for admission to the University of North Carolina System. Students need to apply for the Diploma once they have completed the Core of their respective Plan of Study. Forms are available in Admissions in the Wynn Center.
